

# Infor10 Financials Business (SunSystems)

## Meet change with confidence.

Your traditional financial management system (FMS) locks you in to rules, structures, and business models that can't evolve to meet your changing needs. But you need to redefine your systems on the fly, and respond to changing requirements and evolving strategies. While you may be able to keep up with change, your traditional FMS can't—you're in a constant battle just to make your system meet the current needs of your business. It's time you got a financial solution that works the way you want it to—so when your needs change, your system can keep up. You can meet change with confidence and easily manage growth with Infor10™ Financials Business (SunSystems).

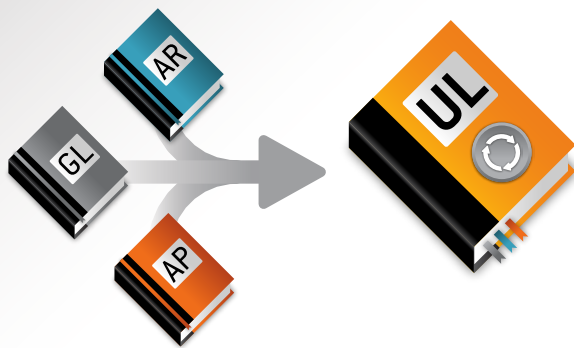

## Adapt to change without changing.

Your financial system should map to your business—not the other way around. But traditional systems are normally based on complex, segmented account codes that are difficult to maintain and change. Mirror your organization's business structure in a way that's easy to configure and extend with Financials Business, which has an innovative design that was developed with change in mind. Not only will you be able to realign analysis and reporting to meet your evolving business needs, but you'll immediately see and report on any change you make—with smart transactions that capture the detailed data you need in order to change without changing.

Because you'll never again be locked into a static structure, you'll be able to:

- ▶ Quickly incorporate new product lines, organizational changes, and acquisitions.
- ▶ Ensure measurements and key performance indicators (KPIs) match the state of your business today.
- ▶ Protect your investment for the future and limit reliance on IT for business-level needs.

Infor10 Financials Business (SunSystems) Unified Ledger

Unified ledgers offer an integrated transaction set that combines general ledger, AP, and AR for instant, consistent access to accurate data.

*Meet change with confidence with Infor10 Financials Business (SunSystems). You'll be able to adapt to change without changing, get the information you need when you need it, and grow in any market.*

## Get the information you need - fast.

It seems like far too often, you can't access the information you need at the time you need it—either because you haven't captured the right information, or because you can't easily retrieve it. But you can take control with the unified ledger in Financials Business, which gives you fast, easy access to smart transactions that deliver not just data, but detailed information with context that you define.

### INTEGRATE INFORMATION.

Imagine having all your ledger data combined in one place, whether it's from your general ledger, sales and purchase ledger, or even a user-defined ledger—without having to wait for batch updates or reconciliations. You'll be able to close your books faster—resulting in lower costs and greater efficiency—with a unified ledger.

### IMPROVE CORPORATE PERFORMANCE.

Streamline reporting and planning cycles with a single, integrated environment. Plus, make it easy for users and stakeholders to understand how your business is performing with immediate reporting and analysis. Decision-makers will get immediate access to the integrated finance and operational information they need to better manage your business.

### INCREASE INFORMATION ACCURACY.

Capture all the detail you need in the source system, and get a clear, complete view of your business from the very start. Finally, you can use spreadsheets as they were actually intended—to analyze the data in your system, not as an alternative place to store it. Because your financial information comes straight from the source, you can be confident it's accurate and up to date.

#### Infor10 Financials Business (SunSystems):

- ▶ More than 8,000 customers in more than 100 countries
- ▶ Has 20+ years of financial experience built in
- ▶ Mirrors how you do business
- ▶ Provides one consistent data set
- ▶ Offers powerful reporting tools
- ▶ Delivers fast ROI

## Grow in any market.

Whether growth means new markets, acquisitions, or products, you need to adapt and respond to unique requirements with ease—and speed. Standardize financial management and adjust accounting structures quickly, easily, and without breaking the bank.

### YOU WILL:

**Get built-in international expertise**—If growth means going global, it's not enough to cover basic requirements like multiple languages and currency. You'll be ready to handle all the global essentials with Financials Business, which has advanced features such as four-dimensional multi-currency and parallel accounting treatments.

**Leverage one solution for all your needs**—Simplify system management, streamline processes, and make your business less complex with one solution that brings everything together across different sites, countries, business units, companies, and corporate offices—and is flexible enough to handle their varying requirements.

**Provide a consistent and auditable environment**—Comply with local statutory, audit, international financial reporting standards (IFRS), and other regulatory requirements with built-in audit trails, alerts, and sophisticated data reconciliation. You'll be able to handle simultaneous financial reporting requirements in multiple countries so you can close your books faster.

## Make better financial decisions.

When you can see the impact of all your financial transactions as well as the trends that may affect your business tomorrow, you'll have a potent strategic advantage that benefits every aspect of your organization. Make better decisions with:

**Financial management.** Get immediate access to all finance and accounting information so you can make fast and effective decisions about all aspects of financial management, including general ledgers, payable and receivable ledgers, consolidation, corporate allocations, multiple currencies, dual-base currencies, fixed assets, and debtor management. You'll be able to meet multiple and evolving accounting and reporting requirements, because our solutions are highly flexible. Rest assured you'll comply with local requirements, multiple GAAP standards, and evolving reporting requirements such as IFRS.

**Performance management.** Simplify your budgeting, forecasting, and other financial planning processes with Financials Business' budgeting and planning solutions. Turn your data into meaningful information, and then deliver it to the right people, in the right format, at the right time. You'll be able to streamline consolidation, reporting, and analysis of data from third-party organizations and legacy applications, and gain insight into every aspect of your business that matters to you. Plus, you'll be able to deliver financial and operational KPIs to managers at every level, helping them make better decisions, faster.

**Purchase management.** Get a tighter grip on your purchasing activities with Financials Business' complete web-based spending control and management solution, which you can deploy to large numbers of employees. Not only can your employees manage their own purchasing requirements, you can define rules and workflows that automate and enforce corporate policies, improving efficiency and saving money.

**Order management.** Take control of your sales, purchasing, and inventory management, and integrate your operations with your partners and customers. You can configure order processes and sequence your transactions the way you want to, access any associated documents you need, and automatically update your ledger and inventory in real time.

**Professional services automation.** You'll be able to handle project accounting, resource management, billing, and web-based time

and expense management. That means you'll improve staff utilization, optimize cash flow, and increase your revenue.

**Document management.** With just a few clicks of your mouse, you can automatically capture, authorize, and archive business documents such as invoices, purchase orders, and statements. You'll save time, money, and storage space, and comply with increasing regulations. Not only that, you'll support your company's green initiatives.

**Integration platform.** You'll be able to integrate Financials Business with other enterprise and financial systems you already have, because of Financials Business' open architecture and unparalleled interoperability—especially valuable if you need a flexible financial solution to help you cope with unpredictable business conditions.

## Take control now.

Meet change with confidence with Financials Business, which is designed to support and reinforce today's best financial management practices and address your key challenges. You'll be able to adapt to change without changing, get the information you need when you need it, and grow in any market. Plus, you'll be able to make the right decisions, at the right time, every time. You can implement Financials Business quickly and easily, leading to fast ROI and low total cost of ownership over the long run. In addition, you can reconfigure the solution quickly to support changes in your financial processes and business operations.

You'll get everything you need to:

- ▶ Easily accommodate change.
- ▶ Manage the expected and unexpected.
- ▶ Protect your investment.
- ▶ Concentrate on your business without worrying about your systems.
- ▶ Simplify support worldwide.

Plus, because your system supports future growth, you can:

- ▶ Expand internationally without having to add new systems.
- ▶ Get up and running quickly in a new country.
- ▶ Standardize financial management across countries.
- ▶ Comply with multiple regulatory and reporting requirements.

## Powered by Innovative Technology

Infor's newest technologies bring our portfolio of proven products to new levels of power, usability, and flexibility. Some of these technologies include:

### INFOR10 WORKSPACE

You don't need more information; you need the right information at the right time. Unified navigation, single-click access to Infor systems, personalization, web parts, and shortcuts get you to the information you need quicker and easier. You'll have everything you need to work on what matters, in a way that makes sense to you, so you can simplify your work day.

### INFOR10 ION

The unifying platform to connect and manage your applications, Infor and non-Infor. Seamless, flexible integration between your current core applications and your third-party solutions, whether they're on-premises, in the cloud, or both. Identify your key business processes and let the exceptions find you—automatically alert your users based on key issues so they can keep their finger on the pulse and respond immediately. With Infor10 ION, your systems and your people can simply work together.
