

Azure Optimisation Service

A business' demand for Azure workloads will fluctuate. Optimisation of your Azure environment will ensure the business is maximising its subscription and saving on costs.

Our Azure Optimisation Service package is designed to help you reduce your monthly Azure spend by identifying the areas of your subscription on which you can improve. In as little as two days, and with an affordable service fee, you will be given recommendations and optimisation strategies on how you can save overall on your Azure costs.

Benefits of our Azure Optimisation Service

1. Keep your Azure spend under control.
2. Eliminate underutilised Azure resources.
3. Discover best practices to manage your Azure usage.
4. Work with the best Cloud and Infrastructure consultants.
5. Partner with an organisation that has a 30 year track record in the IT industry.

Service inclusions

Review of Existing Azure Environment

This step will review your current Azure usage, its associated costs, existing resource configuration, and utilisation.

Review of Azure Licensing and Subscription

This step will analyse your existing Azure licensing structure to identify any benefits that you could be missing out on.

Documentation and Reporting

This final step will document the optimisation strategies as a result of the Azure environment and licensing review, and propose changes to reduce overall Azure costs.

Tiering Options

TIER	SERVERS	DURATION
Small	<10 servers	2 days
Medium	10-20 servers	3 days
Large	21-30 servers	5 days
Enterprise	>31 servers	Subject for assessment

Start saving on your Azure costs now!
