

Microsoft SharePoint & Teams

ATSICHS Brisbane

Queensland's largest indigenous
community healthcare organisation
modernises its work environment
with Microsoft 365.

ORGANISATION

Aboriginal & Torres Strait
Islander Community
Health Services

INDUSTRY

Healthcare,
Not-for-Profit

STAFF SIZE

Medium
(300+ employees)

Challenges

Data was not centralised, hindering
accessibility, and mobility for its people.

File shares didn't allow their people
real-time collaboration, easy data
discovery, and quick access to information.

Communication was done only via phone
calls and email, limiting the ability to
collaborate across the business.

Solution

Professional Advantage provided its deep expertise
in implementing a SharePoint Intranet as well as
guidance on data governance for Microsoft Teams.

Microsoft
365

Microsoft
SharePoint

Microsoft
Teams

*"Being able to access a unified solution
that has the scalability, security, and
governance that Microsoft 365 does;
there's no competitor that can do it
in the same way."*

– Jarryd Aleckson, IT Manager ATSiCHS Brisbane

Results

Centralised corporate content into a single
repository, accessible on the go using
Microsoft SharePoint.

Modernised communication and
collaboration, enabling chat, call, and
online meetings with Microsoft Teams.

1,500% user engagement in Teams
in its first 30 days of deployment.

Improved staff engagement with regular
communications and live events done
in Yammer.

10,000% user engagement in Yammer
in its first 60 days of utilisation.
