

Wine Australia

Wine Australia is an Australian Government statutory authority that fosters and encourages profitable, resilient, and sustainable Australian wine grape and wine businesses. They focus significantly on regulatory compliance and marketing. They ensure that all wine that leaves Australia reaches their recommended quality criteria level, evangelising information that will promote Australian wine production and exportation.

 **Industry:**
Government

 **No of Employees:**
100

 **Solution:**
**Microsoft Azure
Azure App Service**

BEFORE

Used Direct Access for remote access to internal resources, but used expensive on-premises servers.

AFTER

Cloud-based secure remote desktop.

Decommissioned DirectAccess and replaced with Windows Virtual Desktop, a more secure desktop and app virtualisation service in Azure.

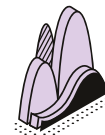

BEFORE

Used traditional firewalls, anti-spam, and anti-virus to guard against cyber threats.

AFTER

Strengthened security posture.

Greater visibility on security with threat prevention recommendations and security alerts to proactively guard against cyber threats.

AFTER

Familiar IT tools in the cloud.

Leveraged their IT team's knowledge of the Microsoft infrastructure solutions. No ramp up time needed.
