# Information Protection and Compliance Solution
## FOR AN INFORMATION WORKER

### Before iWorkplace
**The Confused Information Worker**

### After iWorkplace
**The Empowered Information Worker**

**RECORDS MANAGEMENT CHALLENGES**
**Typical records management situation.**

**iWORKPLACE SOLUTION**
**Make records management easy with iWorkplace**

| Before | After |
|---|---|
| Traditional on-premises file share or paper-based records. | Microsoft 365-based, convenient access anywhere, on any device. |
| Content tagging is too complex for users. | Auto-tagging of documents when filed. |
| Siloed, difficult-to-use records management system. | Optimal user experience with SharePoint and Microsoft Teams. |
| SharePoint Administrator required to manage records. | Empower Power Users to manage records. |
| Out-of-sync collaboration and records management systems. | Single place to go to store, tag, and file content or records. |
