Effortlessly consolidate data

Solver is redefining the category of cloud-based reporting and planning and provides a user-friendly data warehouse that is built on the Microsoft SQL Azure platform. Solver takes away the complex, expensive implementation of a “homegrown” data warehouse, and instead allows users to access GL data in a day, versus weeks or months. Solver combines financial and other key data into a single solution, powered by the most flexible report and planning form designer on the market. Streamlining financial and operational reports, consolidations, budgeting and forecasting processes.

Profitability analysis dashboard

Drive intelligent decisions with ready-to-use marketplace templates

Solver is designed to meet the reporting needs of all employees. Meet all your reporting needs on day one with ready-to use reports, planning forms, and dashboard templates from the Solver Template Marketplace or create ad-hoc and custom reports to fit specific requirements.
